

# The Umbrella Option

An Elite Cyber TSCM Program Designed for Business Owners & C-Suite Executives

Because You Need An  
*Umbrella of Privacy*  
Wherever You Are 365, 24/7!

## *Eavesdropping Threats Persist Beyond Your Executive Office Walls*

In today's mobile world, business communications are not limited to the privacy of your executive offices during "normal" business hours. Fulfillment of your executive responsibilities requires concise action. But, how can you protect privileged corporate information and fulfill your duties?

ComSec LLC's Umbrella Option provides an effective solution for executives. **The Umbrella Option is a comprehensive Cyber TSCM program incorporating periodic cyber TSCM inspections, electronic signature countermeasures and eavesdropping threat information that empowers executives and high-profile individuals.**
