

Kestrel TSCM[®] Professional Software

*RF Sweeps, Capture, Analysis, and Remote Spectrum
Surveillance and Monitoring, have Never been this Easy!*

Signal Intelligence Support System[™]

*Developed in Canada, Kestrel TSCM[®] is well
Positioned to Hunt in a Complex Signal Environment!*

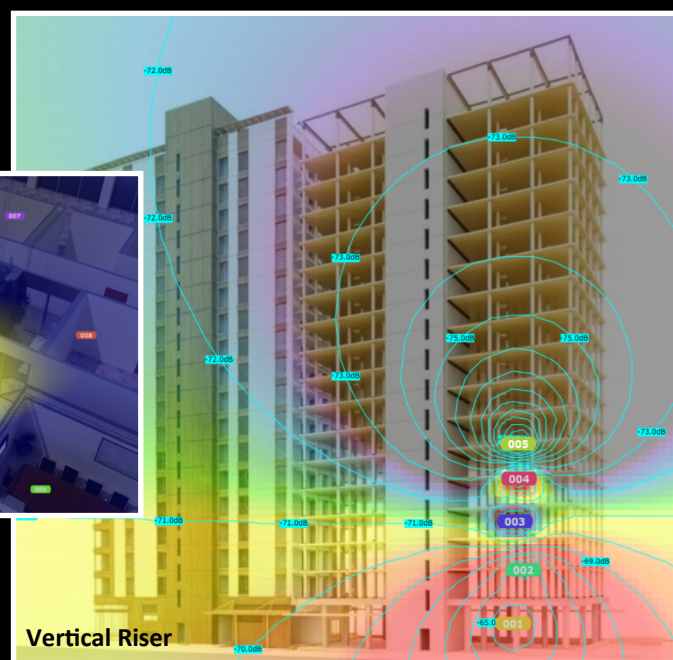

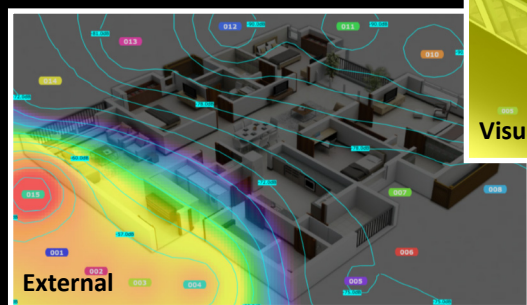

Not Just Another TSCM Spectrum Analyzer! | Now You Can Have Tomorrows TSCM Software — Today!

Kestrel TSCM[®] Professional Software

*Visualizing RF Propagation is Now a Powerful New
Reality When You Deploy our Tap Capture Plot (TCP)[™]
RF Visualizer (RFV)[™] Display Mode*

Dimensional TSCM Spectrum Propagation Modeling that Develops Before Your Eyes!

*The ability to capture a wide Location Differential Signal Analysis (LDSA)[™] Range
of Interest (ROI) Plot and produce a powerful channelized operator interactive geo-
location heat map with our new RF Visualizer (RFV)[™] technology, all on a single SDR
radio! Now possible with precision RF propagation contouring down to 1/10 of a dB.*

Kestrel-net[™]
Actionable RF Intelligence

"INNOVATION IS SIMPLY THE BEGINNING"
