RF SPECTRUM ANALYSIS SOLUTIONS

POWERED BY KESTREL TSCM PROFESSIONAL SOFTWARE

KESTREL SCOUT RF LOCATOR INCLUDES:

* Computer: Ruggedized Laptop.
* Kestrel TSCM Pro Software License
* Signal Hound Software Defined Radio
* Mouse
* Antenna
* Carry Case

Optional software modules and software training are also available.
Email lml@comsecllc.com for a complete list of options.

KESTREL TSCM PRO SOFTWARE:

Kestrel TSCM Pro Software leverages advanced software defined radio (SDR) concepts to deliver standalone RF remote spectrum surveillance, monitoring, collection and analysis functionality. Kestrel is ideal for professional technical surveillance countermeasures TSCM, SIGINT, intelligence, counter terrorism, managed Remote Spectrum Surveillance and Monitoring (RSSM), the law enforcement community, government, military, space, and spectrum regulatory agencies.

SPECTRUM ANALYZERS:

Made in the USA by Signal Hound.

| Kit Type	Receiver	Frequency Range	Sweep Speed
KSRFL-6	Signal Hound BB60C	9 kHz to 6 GHz	24 GHz/Sec
KSRFL-20	Signal Hound SM200B	100 kHz to 20 GHz	1 THz/Sec at 30 kHz RBW
KSRFL-43	Signal Hound SM435B	100 kHz to 43.5 GHz	1 THz/Sec at 30 kHz RBW

BB60C: 6 GHz   SM200B: 20 GHz   SM435B: 43.5 GHz

THE SYSTEM:

A MOBILE, FIELD READY SIGNAL INTELLIGENCE SUPPORT SYSTEM.

ORDERING INFORMATION:

To order the ComSec Scout RF Locator, please request a quote via email to lml@comsecllc.com. If you have any questions, please call 1-800-615-0392.
