

MEFF M3-PRO

PROFESSIONAL MALWARE SCANNER

SCAN. ANALYZE. PROTECT.

CORE CAPABILITIES:

Android (local) Scan:

Full inspection of installed apps, active permissions (mic, camera, location, accessibility, admin), system files, running processes, and resource use.

iOS (sysdiagnose) Scan:

Automatic import and analysis of iPhone sysdiagnose; log parsing, telemetry, behavior diff, and timeline rebuild.

Traffic Capture:

Packet-level capture over Wi-Fi monitor mode or via tethered cable; review of outbound traffic, DNS, C2 signals, and suspicious communications.

AI-Powered Analysis:

On-device engine rates risk, flags behavior, and suggests fixes. Fully offline for privacy.

Fast Operation:

Quick first pass in minutes; deeper dives as data requires. Professional reports: PDF plus JSON/CSV export, event timeline, grouped evidence, and clear actions.

Field-Ready:

Compact, battery powered, USB-C for power and data transfer.

UI Options:

Touchscreen Dark Theme, CLI for forensic workflows, and demo mode for talks.

Data Protection:

AES-256 encrypted storage, passphrase-protected key, secure cleaning of temporary reports.

OPTIONAL: Remote Scan System for iOS and Android devices.
